

Top Honors Awarded at Broward County Science Fair

Congratulations to our MS and US students for winning 4 FIRST PLACE awards and 11 TOP FOUR awards in the Broward County Science Fair! We also commend our 3 US students on becoming STATE FINALISTS!

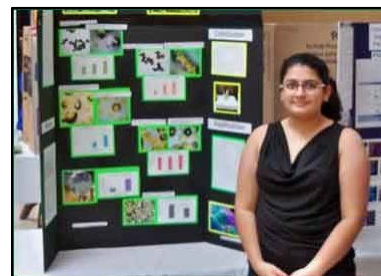

Middle School science fair projects are developed primarily in the classroom to afford students the opportunity to conduct thorough research, experiments, and analysis under the supervision of their science teachers. At the Upper School level, students transfer the skills learned in Middle School to look for problems in the world around them and explore solutions independently.

Congratulations to all of our winners!

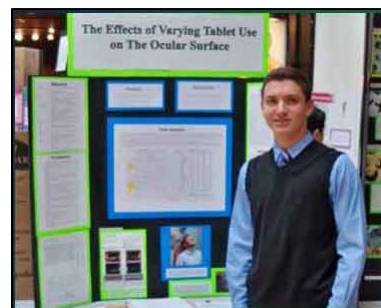

Upper School: First Place and State Finalists

Billy Herskowitz Medicine and Health
Shari Kumar Medicine and Health
Neha Narang Engineering: Materials and Bioengineering

Second Place

Nisha Chaudhari Behavioral Sciences
Elizabeth Cornfeld Engineering

Third Place

Morgan Clarke Microbiology

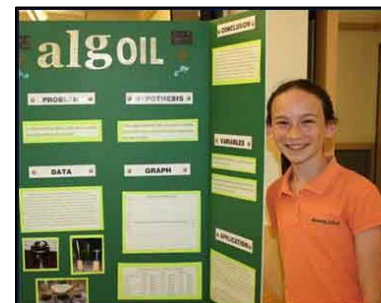

Fourth Place

Ethan Gellman Engineering
Simran Rajani Behavioral Sciences

Middle School:

First Place and State Finalist

Sydney Silverstein Environmental Science

Fourth Place

Emily Rodman Chemistry
Ashna Ahya Medicine and Health
