University School Sweeps Three District Championship Titles

University School's Golf, Varsity Football and Boys Swimming and Diving teams recently all earned the title District Champions. The achievements are all the more impressive when one considers that 100% of qualifying teams were officially recognized last year by Florida High School Athletic Association (FHSAA) as Academic Champions, an impressive academic designation sweep that University School's coaches and teachers are striving to achieve again this year.

University School's unique partnership between coaches and teachers and their student-athletes represents a dual commitment to academic rigor and athletic performance. As a result, University School student-athletes are equipped to achieve high levels of success on and off the field. In addition, University School's interscholastic athletic programs have made an immense impact on school pride, enthusiasm and spirit among students, families, staff and affiliates. Way to go, US Suns!
