

Registration and Payment Process

- A separate registration form must be completed for each course/child
- Once you have completed the registration form and clicked on Submit Course Selection, you will receive a copy for your records. The form is time stamped so the instructor will be able to contact the parents in the order that the registration form was received.
- For private lessons, the instructor will contact you to set up the day and time of the lesson. Once the day and time has been selected, the instructor will send you an invoice based upon this information. The instructor will hold that space for 24 hours and if the full payment for the semester is not received within that time frame, the space will be released.
- For group classes, the instructor will contact you to confirm your registration. Based upon your registration, the instructor will send you an invoice for the class to be paid in full within 24 hours, otherwise your child will be removed from the class roster.
- For private lessons only, there is the option to have one trial lesson. The registration process is the same as listed in the previous bullets, but if the instructor/student fit is not optimal, a full refund will be issued. If the parent cancels after two lessons, no refund will be given. The instructor will need to know up front that the first lesson is to be a trial lesson.

Payment Information

- Tuition waivers can no longer be accepted as the instruction is being provided directly by Independent Contractors
- Lessons are being offered for the entire semester only
- Once you have received an invoice from the instructor, you will have 24 hours to make full payment for the semester, otherwise your requested time slot will be released
- Only credit/debit cards will be accepted for payment, and payment will be processed through the instructor's PayPal Business Account

Refund Policy

There are no refunds for missed lessons
